PROFESSIONAL SUMMARY

Results-driven Information Technology Graduate (GPA 3.8, Honors) with expertise in building scalable full-stack web applications and integrating artificial intelligence solutions. Experienced in developing secure, high-performance platforms using React, Node.js, and Laravel. Proven track record of delivering complex projects, including LMS platforms and AI advisory systems, with a strong focus on modern UI/UX, secure coding practices (OWASP), and cloud deployment (AWS, Vercel).

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Vue.js, HTML5, CSS3

Backend: Node.js, Express.js, NestJS, PHP, Laravel, Python (FastAPI, Flask)

Database: MySQL, PostgreSQL, MongoDB, Redis, Firebase, Prisma

AI & ML: OpenAI API (GPT-4), Prompt Engineering, Scikit-learn, Pandas, NLP Basics

DevOps & Cloud: AWS, Docker, Git, CI/CD, Vercel, Netlify, Nginx

Security & Architecture: JWT, OAuth 2.0, OWASP Top 10, RESTful APIs, GraphQL, MVC, Microservices

PROFESSIONAL EXPERIENCE

Full Stack Developer & AI Integrator

2023 – Present

Freelance / Remote

- Designed and developed end-to-end web solutions for diverse sectors including e-commerce, healthcare, and education using React and Laravel.
- Integrated advanced AI capabilities (OpenAI GPT-4) into web applications to build chatbots and recommendation engines.
- Implemented robust security measures including JWT authentication, Role-Based Access Control (RBAC), and OWASP secure coding standards.
- Optimized application performance and deployed scalable architectures on AWS, Vercel, and Netlify using Docker and CI/CD pipelines.
- Collaborated directly with clients to analyze requirements, translate business needs into technical specifications, and deliver maintainable code.

PROJECTS

Employee Performance Review System

Thesis Project

Laravel · Vue.js · MySQL · Role-Based Access

- Developed a comprehensive HR platform connecting administrators, managers, and employees for transparent performance cycles.
- Built a dynamic feedback loop system allowing 360-degree reviews and automated score calculations.
- Designed complex database schemas in MySQL to handle organizational hierarchies and review history with high data integrity.

AI Executive Board Advisor

Next.js 14 · NestJS · GPT-4o · OpenAI API

- Engineered an advanced AI advisory platform simulating an executive board to assist entrepreneurs with strategic decision-making.
- Optimized prompts and integrated GPT-4o via NestJS backend to generate context-aware business advice.
- Implemented a modern, responsive UI using Next.js 14 App Router and Server Components for optimal performance.

Integrated E-Learning Platform (EduPlatform)

React 18 · Supabase · Tailwind CSS · Gamification

- Developed a complete Learning Management System (LMS) featuring role-based dashboards for students and instructors.
- Integrated gamification elements (points, badges) to increase user engagement and course completion rates.
- Leveraged Supabase for real-time database subscriptions and secure authentication in a serverless architecture.

OBSIDIAN Luxury E-commerce

React · TypeScript · Tailwind · Stripe

- Architected a high-end e-commerce platform focused on delivering a premium shopping experience with seamless navigation.
- Implemented advanced state management using React Context and Hooks to handle complex product variants and cart logic.
- Optimized UI rendering for high-value imagery using lazy loading and modern CSS techniques to ensure fast load times.

MedAI Smart Medical Advisor

React 19 · TypeScript · AI Chat · NLP

- Built an AI-powered medical consultation platform providing users with instant health advice and initial symptom guidance.
- Integrated sophisticated Natural Language Processing (NLP) models to interpret user queries and triage medical requests.
- Ensured strict data privacy and compliance with healthcare standards in the frontend architecture using React 19.

EDUCATION

Bachelor of Information Technology

2021 – 2025

*Al-Rayan University***GPA: 3.8/4.0** · Honors Degree

CERTIFICATIONS

FreeCodeCamp (300 Hours Each): Responsive Web Design · Front-End Development Libraries · Back-End Development and APIs · Legacy Front-End · Legacy JS Algorithms & Data Structures · Data Visualization · Legacy Data Visualization · Scientific Computing with Python · College Algebra with Python.

Edraak (إدراك): UI/UX Principles & Design · Microsoft SQL Server Databases · ICDL Certification (32 Hours) · Business Essentials · English For the Workplace · Introduction to AI · Introduction to Cybersecurity.

EVET (إيفت): Blog Website Design (24 Hours) · Computer Maintenance (14 Hours) · Smartphone Programming (14 Hours) · Cyber Security Basics (10 Hours) · Penetration Testing w/ Metasploit (10 Hours).

RWAQ (رواق) & SASS: Computer Network Principles (RWAQ) · Computational Thinking (RWAQ) · Ethical Hacking (SASS - 50 Hours).
